# ISO 14001 certified

*"We are proud to be the first in our industry to meet this rigorous standard."*  
Jeroen Meier, MD Freelifft

## The natural way is up!

Freelifft and the environment...hand in hand!

- ✓ Freelifft is the first stairlift company in the field to be awarded the ISO 14001:2004 environmental management certificate. Across the Freelifft system, we recognize that climate change may have long-term implications for our business and supply chain. Our business system has a role to play in ensuring we use the best possible mix of energy sources whilst improving the energy efficiency of our manufacturing processes. Working with Freelifft means you can rely on goods and services which are manufactured with the deepest environmental responsibility to the highest quality standards.
- ✓ Freelifft recognizes that health and safety is crucial to the business, and we are dedicated to operating in a manner which minimizes risk to employees, visitors and contractors on site. OHSAS 18001 occupational health and safety (OH&S) specification demonstrates that Freelifft Ltd has controls in place to eliminate or minimize any risk associated with its activities to employees and other interested parties.
- ✓ Freelifft Ltd has held ISO9001:2000 quality management certificate since May 2002. All our products are tested and approved by worldwide independent inspection services. This gives our users the assurance that all our products meet the highest standards in terms of quality, safety, comfort and design and are manufactured with corporate, social, and environmental responsibility.
- ✓ We consider ISO quality more than just a word or goal. It is a world recognized symbol of excellence that guarantees quality products whilst respecting environmental implications. At Freelifft, it is yet another step towards achieving total customer satisfaction.
