

Freelift® Panda Seat

THE STAIRLIFT COMPANY

Suitable for straight and curved stairlifts

Nothing compares to a smile!

R82 developed the Panda Seat for children, as they too need a comfortable, safe and ergonomically designed seat.

As Europe's most experienced manufacturer of stairlifts, Freelift have developed the ultimate lift for every staircase and have made sure that the Panda seat can work perfectly on all its stairlifts. So now children can also use the stairs safely and comfortably, and you can be assured of top quality and the most elegant solution for your home.

The right seat every time

Freelift's Panda is available in 4 sizes, suitable for children aged 1 to 9. Experience has shown that older children seldom have problems with a 'standard' seat, and it can therefore be fitted to your Freelift at any time.

The Panda has attractive black and red upholstery which can be removed for washing. The seat supports your child in the best way possible, while still allowing freedom of movement. Freelift take safety very seriously, therefore we ask R82, the seating specialists, to carry out a detailed seat survey with us, and recommend the best solution for each installation and end user.

Safety first

✓ Vests and Belts

A wide selection ensures the correct support for all sizes of children, increasing safety and ensuring the correct sitting position.

✓ Head Supports

Where required, head supports are available in a number of different shapes and sizes. The covers are removable and washable.

✓ Footrest

An adjustable footrest is available.

✓ Hand-held transmitter

The hand-held transmitter ensures ultimate ease of use.

✓ Swivel seat

The seat swivels at the top of the stairs for safe dismount. Swivel handles are located at each side of the seat.

- ✓ Suitable for ages 1 to 9
- ✓ Available in 4 sizes
- ✓ Fits on straight and curved stairlifts
- ✓ BSI Approved

*Supporting
your child
the best way
possible*
